### **Limitations of controls**

Because of the inherent limitations of any internal control structure it is possible that, even if the controls are suitably designed and operating effectively, the control objectives may not be achieved so that fraud, error, or non-compliance with laws and regulations may occur and not be detected.

An assurance engagement on controls is not designed to detect all instances of controls operating ineffectively as it is not performed continuously throughout the period and the tests performed are on a sample basis. Any projection of the outcome of the evaluation of controls to future periods is subject to the risk that the controls may become inadequate because of changes in conditions, or that the degree of compliance with them may deteriorate.

### **Limitation of use**

This report has been prepared for the members of the Council in Accordance with Section 129 of the *Local Government Act 1999* in relation to the internal controls specified above. We disclaim any assumption of responsibility for any reliance on this report to any persons or users other than the members of the Council, or for any purpose other than that for which it was prepared.
